MANAGEMENT DISCUSSION AND ANALYSIS

REPORT

Overview of Indian Economy:

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organisation (CSO) and International Monetary Fund (IMF). India's GDP is estimated to have increased 7.2 per cent in 2017-18 and 7 per cent in 2018-19. India has retained its position as the third largest startup base in the world with over 4,750 technology start-ups.

India's labour force is expected to touch 160-170 million by 2020, based on rate of population growth, increased labour force participation, and higher education enrolment, among other factors, according to a study by ASSOCHAM and Thought Arbitrage Research Institute.

India's foreign exchange reserves were US\$ 405.64 billion in the week up to March 15, 2019, according to data from the RBI.

Recent Development

With the improvement in the economic scenario, there have been various investments in various sectors of the economy. The M&A activity in India reached record US\$ 129.4 billion in 2018 while private equity (PE) and venture capital (VC) investments reached US\$ 20.5 billion. Some of the important recent developments in Indian economy are as follows:

- During 2018-19 (up to February 2019), merchandise exports from India have increased 8.85 per cent year-on-year to US\$ 298.47 billion, while services exports have grown 8.54 per cent year-on-year to US\$ 185.51 billion.
- Nikkei India Manufacturing Purchasing Managers' Index (PMI) reached a 14-month high in February 2019 and stood at 54.3.
- Net direct tax collection for 2018-19 had crossed Rs 10 trillion (US\$ 144.57 billion) by March 16, 2019, while goods and services tax (GST) collection stood at Rs 10.70 trillion (US\$ 154.69 billion) as of February 2019.
- Proceeds through Initial Public Offers (IPO) in India reached US\$ 5.5 billion in 2018 and US\$ 0.9 billion in Q1 2018-19.
- India's Foreign Direct Investment (FDI) equity inflows reached US\$ 409.15 billion between April 2000 and December 2018, with maximum contribution from services, computer software and hardware, telecommunications, construction, trading and automobiles.
- India's Index of Industrial Production (IIP) rose 4.4 per cent year-on-year in 2018-19 (up to January 2019).
- Consumer Price Index (CPI) inflation stood at 2.57 per cent in February 2019.
- Net employment generation in the country reached a 17-month high in January 2019.

Key highlights of Indian Economy:

Survey sees FY20 GDP growth at 7%, higher growth on stable macros.

* India needs to grow at 8% per year to be \$5 trillion economy by FY25

Survey suggests diplomatic type privileges, naming roads for top taxpayers

* It recommends a renewed focus on pushing up exports.

* Govt should foster the growth of large firms instead of focusing on smaller firms.

* Use public data to revolutionise development in the country.

*** Looking beyond the economics of equilibrium, survey makes case for investment-driven “virtuous cycle” to sustain growth at 8%.**

*** Investment the “key driver” of simultaneous growth in demand, jobs, exports & productivity**

* Green shoots in investment activity seems to be taking hold.

* Rural wage growth started increasing since mid-2018.

* Political stability should push the animal spirits of economy.

* Poor enforcement of contracts and dispute resolution is a big hurdle. Faster legal process should be top priority.

OUR INDUSTRY: Overview of Real Estate Industry

The real estate sector is one of the most globally recognized sectors. Real estate sector comprises four sub sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy.

It is also expected that this sector will incur more non-resident Indian (NRI) investments in both the short term and the long term. Bengaluru is expected to be the most favoured property investment destination for NRIs, followed by Ahmedabad, Pune, Chennai, Goa, Delhi and Dehradun.

Market Size

Real estate sector in India is expected to reach a market size of US\$ 1 trillion by 2030 from US\$ 120 billion in 2017 and contribute 13 per cent of the country's GDP by 2025. Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

Sectors such as IT and ITeS, retail, consulting and e-commerce have registered high demand for office space in recent times. Commercial office stock in India is expected to cross 600

million square feet by 2018 end while office space leasing in the top eight cities is expected to cross 100 million square feet during 2018-20. Gross office absorption in top Indian cities has increased 26 per cent year-on-year to 36.4 million square feet between Jan-Sep 2018. Co-working space across top seven cities has increased sharply in 2018 (up to September), reaching 3.44 million square feet, compared to 1.11 million square feet for the same period in 2017.

Real Estate as a sector is the second largest employer, after agriculture and constitutes almost 6% of our GDP. In India, urbanization is the biggest growth driver for real estate, which is fueled by growth in business environment in the country and it is estimated that around 10-12 million people getting urbanized annually. Further, the government is backing the sector with several initiatives like a push to develop 100 cities into smart cities, initiatives like “Housing for all by 2022” for a growing population in both urban as well a rural India backed by both financial and regulatory support for the buyers and developers. By 2022, real estate and construction sector in India is expected to generate 75 million jobs & emerge as the largest employer in the country. In a falling interest rate scenario with the GDP of the country growing at the fastest pace among the major economies and an easy business environment which is being pushed by the government to bolster the “Make in India” initiative, the demand for assets across the sector may see gradual revival in the next 1-3 years.

The sector is broadly classified into three segments viz. Residential, Commercial and Retail-Malls. There are 8 major real estate markets in the country, with Mumbai, NCR and Bengaluru being the top cities, followed by Pune, Hyderabad, Chennai, Kolkata and Ahmedabad.

The residential real estate segment is fragmented by nature with dominant regional players and very few developers having a pan-India presence. Commercial real estate and Retail real estate segment has fewer players which hold most of the quality office and retail spaces which ensures transparent transactions and accountability in the business for investors and buyers/leasers alike compared with the residential segment.

The real estate sector is headed for greater transparency, and accountability after the introduction of Real Estate Regulation and Development Act, 2016 (RERA) and various other regulatory and policy initiatives. Sources of funds to the cash-starved sector have recently witnessed innovation with introduction of structured products through CMBS, REITs, PE funding etc.

Regulatory changes and policy initiatives for the real estate industry

The real estate industry witnessed introduction of regulatory changes and policy initiatives in order to transform it into an organized, transparent, accountable and investor-friendly sector. Lack of long term funds has been the biggest impediment for the sector which could not be

fulfilled by banking institutions owing to regulatory restrictions of the Central bank. Some of the regulatory changes and additions between 2014-16 are as follows-

- Real Estate Investment Trusts (REITs): One of the most transformational changes which have been brought in to make the entire sector more transparent and investor centric. Apart from the fact that REIT would let small investors buy into the real estate asset class at a much smaller ticket size, REIT gives large portfolio investors the chance to exit from investments, which makes Indian real estate market favorable for more investments from global investor community. Additionally, Budget 2016-17 exempted dividend distribution tax (DDT) on special purpose vehicles (SPVs). Rules for REITs were relaxed, and the investment cap in under-construction projects was raised from 10% to 20%. Currently, around 229 m.s.ft. of office space can be seen as REIT compliant. (Source: JLL Research)
- Real Estate (Regulation & Development) Act 2016: RERA, was passed by the Parliament in March 2016. States have to implement the bill within one year from the time it was passed. This bill is primarily aimed at bringing in, transparency to the sector and is being touted as a pro-consumer law. One of the biggest industry wide change is registration of properties under development by developers which would mean only organized and professionally managed companies would be able to carry on with the business, thus the sector would see lot of consolidation going forward.
- Goods and Services Tax: The GST is the single-biggest tax reform to be ever introduced in India. GST aims at eliminating the difference in indirect taxes applicable across various states, hence bringing in ease of doing business and simplified taxation procedure for businesses. The tax regime would be introduced in the year 2017, with most states having accepted the law after debate and discussion. The sector stands to benefit from the fact that GST would provide more clarity on tax-credits for RE transactions and allowance of input credit would reduce the price of properties. GST rate for the real estate sector is expected to be announced in the next year. The government has given option to real estate companies to charge 5% GST for normal Houses or 1% GST for affordable house with no ITC instead of earlier 12% GST for residential complex. It will boost the real estate as the new GST rates will make cheaper the residential properties for home buyers.
- Infrastructure status to affordable housing: The affordable housing segment has been accorded infrastructure status which would ensure more funding from the banking system as well as Pension funds being eligible to invest long term into affordable housing segment which in turn would reduce the cost of construction. For classification of affordable housing, instead of “built-up” area of 30/60 sqm, the new classification is “carpet-area” of 30/60 sqm. The 30 sqm limit applies only in case of municipal limits of 4 metropolitan cities while for the rest of the country including the peripheral areas of metros, limit of 60 sqm will apply. The government has also extended the time of completion of such projects from 3 years to 5 years.

- Benami Transactions Act 2016: This bill will curb black money flow into real estate and will render holding of property under fictitious names a punishable offence. This bill aims at bringing transparency and accountability in the sector as a whole especially with regard to funding.
- Policy initiatives: Pradhan Mantri Awas Yojana and National Urban Housing Policy 2015 set up to meet the gap of housing through increased private sector participation and policy initiatives to support housing for all across by 2022. Total housing shortage envisaged to be addressed through the new mission is 20 million by 2022.

Smart Cities mission for revival and creation of 100 cities into smart cities, Atal mission for rejuvenation and urban transformation, heritage city development and augmentation yojana (HRIDAY) are some other policy initiatives, which if implemented in line with the projected plan of implementation would be huge growth drivers for housing segment of real estate

Annexure (A) to the Independent Auditors' Report

Referred to in paragraph 10(f) of the Independent Auditor's Report of even date to the members of SVP Housing Limited (formerly known as Mahabir Metallex Limited) on the financial statements for the year ended March 31, 2019:

Report on the Internal Financial Controls under clause (i) of the sub-section 3 of Section 143 of the Act:

1. We have audited the internal financial controls over financial reporting of SVP Housing Limited (formerly known as Mahabir Metallex Limited) ("the Company") as of March 31, 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include of the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of its frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under Sec 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of

financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

- 7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

- 8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the financial statements

1. Summary of significant accounting policies

1.1 Basis of Accounting

"These financial statements have been prepared as going concern in accordance with the generally accepted accounting principles in India under the historical cost convention on accrual basis, except for certain tangible assets which are being carried at revalued amounts. Pursuant to Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 till the standard of accounting or any addendum are prescribed by the Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing accounting standards notified under Companies Act, 1956 shall continue to apply.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – noncurrent classification of assets and liabilities."

1.2 Revenue Recognition

Revenue is recognised as:

- a) Domestic Sales on transfer of significant risks and rewards to the customer which takes place on dispatch of goods from the factory.
- b) Export Sales on transfer of significant risks and rewards to the customer which takes place on dispatch of goods from the port.

1.3 Fixed Assets

Tangible Assets

Fixed Assets (except Freehold Land which is carried at cost) are carried at cost of acquisition or construction or at manufacturing cost (in case of own manufactured costs) in the year of capitalisation less accumulated depreciation.

Depreciation on Tangible Assets

"i) Tangible Assets are stated at acquisition cost, net of accumulated depreciation.

Items of fixed assets that have been retired from active use and are held for disposal are stated at the lower of their net book value and net realisable value and are shown separately in the financial statements. Any expected loss is recognised immediately in the Statement of Profit and Loss.

Losses arising from the retirement of, and gains or losses arising from disposal of fixed assets which are arrived at cost are recognised in the Statement of Profit and Loss. "

ii) Depreciation is calculated on straight-line basis from the first day of the month in which it is acquired. The rates are based on the following expected life of the assets and are higher than the rates prescribed in Schedule II to the Companies Act, 2013.

Vehicles	10 Years
----------	----------

Furniture and Fixtures	10 Years
Computers	3 Years

1.4 Inventories

- a) Inventories are valued at lower of cost, determined on the weighted average basis and net realisable value.
- b) The cost of Finished Goods and Work-in-Progress comprises Raw Material, Direct Labour, Other Direct Costs and related production overheads. The Co has included all costs incurred in the valuation of Inventory (work in progress). Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and estimated costs necessary to make the sale.

1.5 Interest Income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

1.6 Taxes

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the period.

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the taxation laws prevailing in the respective jurisdictions.

Deferred tax is recognised for all the timing differences, subject to the consideration of prudence in respect of deferred tax assets. Deferred tax assets are recognised and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. In situations where the company has unabsorbed depreciation or carry forward losses under tax laws, Deferred tax assets are recognised only to the extent that there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits. At each Balance Sheet date, the Company re-assesses unrecognised deferred tax assets, if any.

Minimum Alternate Tax credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

1.7 Provision & Contingencies

Provisions: Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date and are not discounted to its present value.

Contingent Liability: A disclosure of contingent liability is made when there is a present obligation that may require an outflow of resources or where a reliable estimate of such

obligation cannot be made.

1.8 Duties & Credits

- a) Excise Duty is accounted for at the time of clearance of goods, except closing stock of finished goods lying at the time of works.
- b) Cenvat Credit, to the extent available during the year, is adjusted towards cost of materials.
- c) Duty credit on export sales has been taken on accrued basis whether license has been issued after closing of the financial year.
- d) Sales are inclusive of excise duty and after deducting the trade discount and also sales taxes applicable.

1.9 Investments

Investments that are readily realisable and are intended to be held for not more than one year from the date, on which such investments are made, are classified as Current Investments. All other investments are classified as Non Current Investments. Current Investments are valued at lower of Cost and Fair Value. Non Current Investments are valued at cost, except in the case of other than temporary decline in value, in which case necessary provision is made.

1.10 Cash and Cash Equivalents

In the Cash Flow Statement, cash and cash equivalents include cash in hand, demand deposits with bank, other short term highly liquid investments with original maturities of three months or less.

1.11 Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earning per share consist of the net profit for the period and any attributable tax thereon. The weighted average number of shares outstanding during the period and for all periods presented is adjusted for events other than the conversion of potential equity shares outstanding, without a corresponding change in resources. For the purposes of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.
